

## 255 Series

### Overflow/Drain

#### Function:

The **255 Series Overflow/Drain Stand Pipe** serves two functions: to provide overflow protection and to drain the fountain. As a general rule, one 2" drain for every 350 square feet or one 3" drain for every 700 square feet is required for outdoor fountains.

**#255-132 Overflow/Drain:**  
2" stand pipe, 3" NPT base

**#255-133 Overflow/Drain:**  
3" stand pipe, 3" NPT base

**#255-142 Overflow/Drain:**  
2" stand pipe, 4" NPT base.

**#255-143 Overflow/Drain:**  
3" stand pipe, 4" NPT base.

#### Key Features:

- Bronze body and dome; brass stand pipe.
- Sub-surface membrane clamp and neoprene o-ring included.
- Stand pipe designed for 16" water depth; custom lengths available.
