

322-VF Series

Pool Pump

Function:

The **322-VF Series VF programmable, variable speed pumps** are the new standard in pool pumps. IntelliFlo offers onboard intelligence, breakthrough motor technology, and a superior design to deliver energy savings of up to 90%.

#322-012 Pump: 3 HP; 230 Volt; Programmable Variable Speed Pump; 1.15 Service Factor; 16 Full Load Amps; 2" Connection Diameter.

Key Features:

- Dramatically reduces energy consumption by 90%, typically saving hundreds each year.
- Reduced operating noise.
- Automatically monitors and adjusts to pool conditions to provide the longest service life of any pump in its class.
- Links to additional water features and equipment to offer expanded control capabilities.
- Compatible with IntelliTouch for RSV85 communication.

Displays inform you of run time, mode and current status

It tells you when and how to backwash your filter media

Manual mode lets you override programming and run the pump using RPM or flow settings of your choice

Programming is push-button easy. Simple menus lead the way

Capable of linking and communicating with IntelliTouch® control systems for even greater automation possibilities. Plus, IntelliFlo provides these expanded control capabilities while achieving levels of energy and cost-efficiency never available before
