Interactive Spray Parks

# The Adventure Begins:

H2Ofun aquatic play equipment was introduced in 1996 by Hobbs Architectural Fountains. Since then, the product line has grown to include all kinds of play features designed to inspire and ignite a child's imagination. Interactive play is a key component of childhood development, and H2Ofun spray parks challenge children to explore and experience new adventures in a safe environment. The entire product line has been carefully designed with safety in mind for children of all ages. So go on ... get wet and have fun!

## What is a Spray Park?

A Spray Park is an interactive recreational environment that squirts, sprays, mists, splashes, douses and otherwise drenches you in a safe, fun and stimulating outdoor play area. The “zero-depth” Spray Park is uniquely characterized by the absence of an open basin of standing water such as those found in a wading or swimming pool. Spray Parks improve a public space and provide an enriching setting for all age groups.

Typical installation sites include:

- Campgrounds
- Leisure Pools
- YMCA's
- Water Parks
- Hotels and Resorts
- Residential Subdivisions
- Family Aquatic Centers
- Local Parks
- Adjacent to Playgrounds

## Advantages

### Low operating costs

Potable water systems do not require daily maintenance and although a recycling system needs daily water treatment tests, the water source is minimal so there is little consumption of chemicals, little water loss and low overhead with no life guard required.

### Low water consumption

If water consumption is a concern, careful selection of features with minimal water usage can allow you to have an environmentally friendly park. The aquatic play controller also allows you to program water activation for specific hours during the day.

### Safety

There's no standing water so there's no life guard required. A Spray Park is the ideal place to cool off and have fun for all ages. Above ground features have no pinch points and recessed spray jets. Toddlers, seniors citizens and handicap individuals will enjoy the park as much as active children.

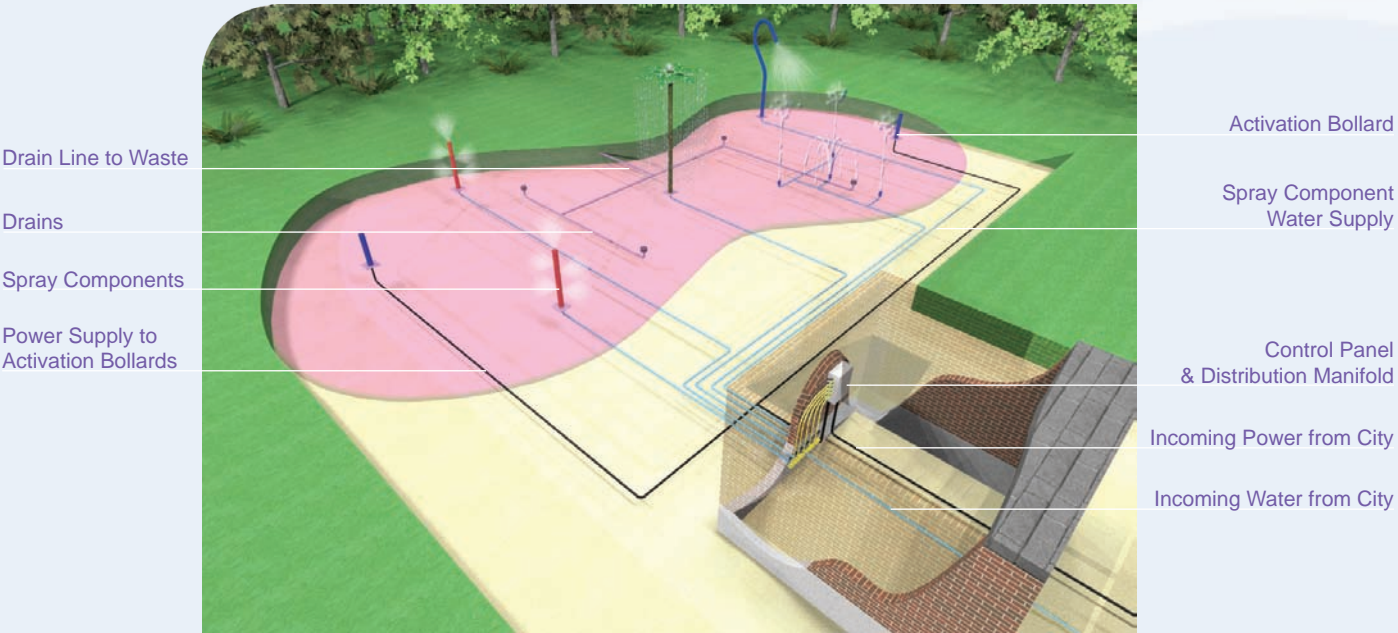

### High fun factor

Lets face it, kids like getting wet! With over 78 million water park patrons per year and growing, the addition of a Spray Park is sure to draw a crowd. Even a small system can have a huge impact on visitors to public parks.

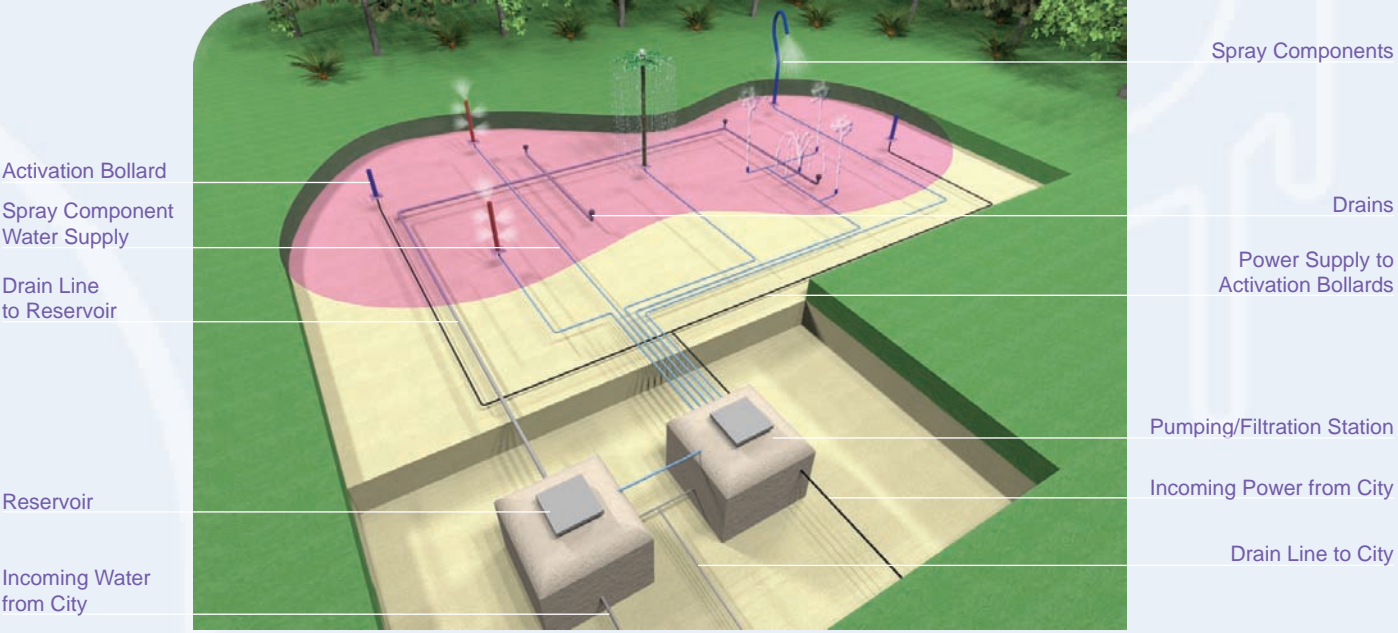

# Display Water Options

**City Water System:** Potable water is the ideal system due to its overall simplicity and near maintenance free operation. City water feeds all features directly with no pumps, filters, or chemicals. The typical city water system requires a small amount of equipment room space, and is wall mounted for even more space savings. If no equipment room is available, underground equipment vaults or above ground enclosures are available (see page 36).

**Recycled Water System:** Recycling water is the best option for large playgrounds and where health code requires. A recycle system contains much more equipment and requires a minimum of a 7'x7' equipment room, depending on the size of the project a larger room will be required. If no equipment room is available, underground equipment vaults are used (as shown). *Recycle systems may require up to hourly maintenance based on city and state health department regulations; only a staffed facility should consider a recycle system as an option.*

## Blue is the New Green!

Water is our business, and we are extremely conscious about how we use it. H2Ofun & Hobbs Architectural Fountains proudly share an initiative that enables our systems to meet requirements for green building regulations for water usage. We are proud to provide intelligent designs that recapture waste water making it

available for your site's irrigation system. We can also harvest rainwater and A/C condensation which, after treatment can be used for the Spray Park itself. This dramatically reduces city water consumption and utility expenses. Conserving water is just one way we say thanks to our planet for all the blue skies and summer days in the park! To learn more about our efforts to conserve natural resources visit our website >

## Spray Features

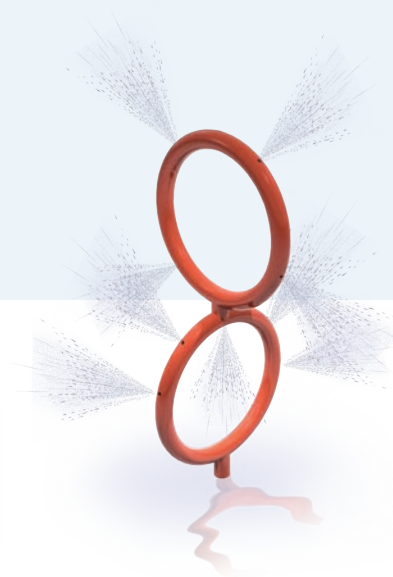

Above ground features can make up an entire park, or can simply be a center piece. Either way, this line of products is the most diverse group we offer, and also packs the most punch! These features are typically enjoyed by older kids because of their sheer size and water volume... like the Buckets O' Fun & the Splash-A-Round. Arrange in groups for great design opportunities and age specific play zones.

**Cactus**  
290-29112

A cool oasis in the sun. Water sprays from 3 different levels on this creatively themed feature.

15' Dia. Splash Zone  
6 gpm @ 20 psi  
Shipping Weight: 125 lbs.  
Height: 10'-2"

**Crazy 8**  
290-30043

Kids will go crazy for this feature. Two rings play a balancing act while spraying from all angles.

10' Dia. Splash Zone  
9 gpm @ 20 psi  
Shipping Weight: 110 lbs.  
Height: 6'-4"

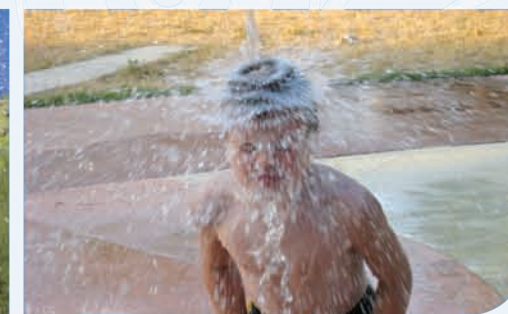

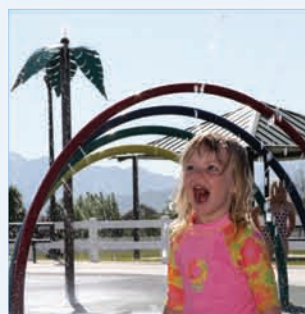

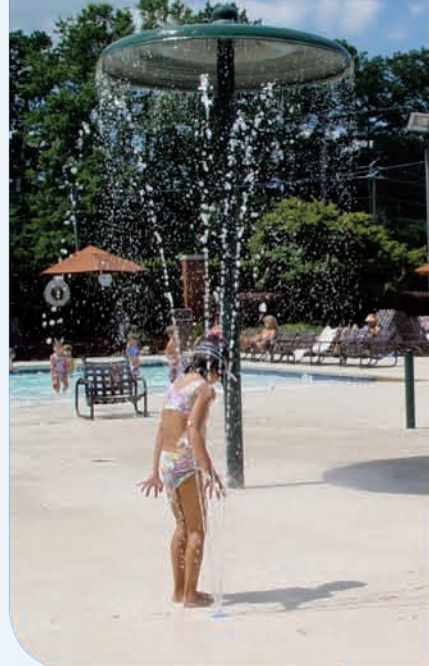

**Buckets O' Fun**  
290-29122

Anticipation! Kids love waiting for the water to come crashing down as 3 buckets fill and then randomly empty.

15' Dia. Splash Zone  
10 gpm @ 20 psi  
Shipping Weight: 120 lbs.  
Height: 10'-2"

**Silly Stick**  
290-30042

With a Morning Glory spray on each arm this feature really packs a punch. It's sure to be a crowd pleaser on any park!

15' Dia. Splash Zone  
27 gpm @ 20 psi  
Shipping Weight: 125 lbs.  
Height: 10'-2"

**Curved Palm Tree**  
290-29157

The tropics come to life with a cluster of water-spraying palm leaves. The spout on top showers a cascade of water off the large green leaves. Choose a straight or curved base with the same six palm leaves.

15' Dia. Splash Zone  
10 gpm @ 20 psi  
Shipping Weight: 130 lbs.  
Height: 10'-4"

**Palm Tree**  
290-29111

**Spray Straw**  
290-29108

The angled ends of the Spray Straw sprays refreshing clouds of mist in whatever direction requested.

8' x 13' Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 95 lbs.  
Height: 8'-6"

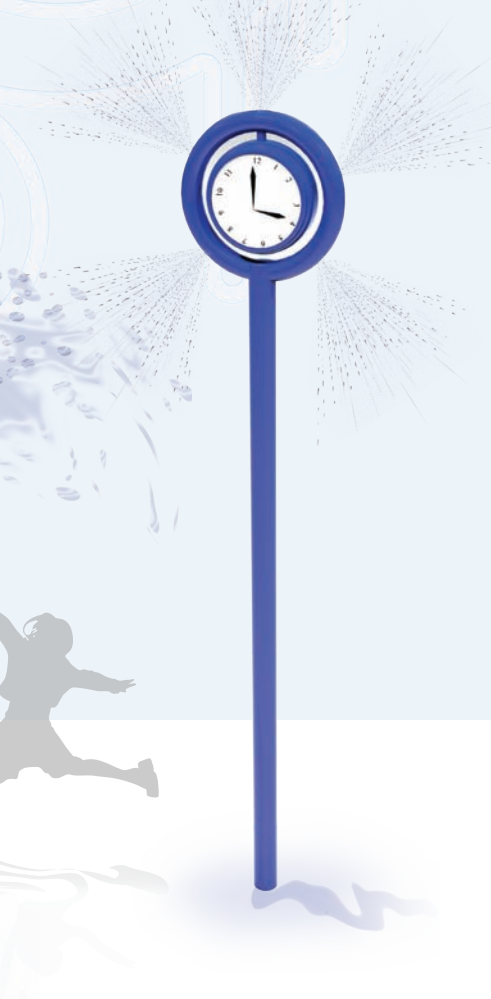

**Curved Morning Glory**  
290-29165

A perfect waterfall -- a rounded one! This feature produces a crystal clear sheet of water cascading down in a 360° circle. Choose a straight or curved base with the same spray top.

15' Dia. Splash Zone  
10 gpm @ 20 psi  
Shipping Weight: 100 lbs.  
Height: 10'

**Morning Glory**  
290-29119

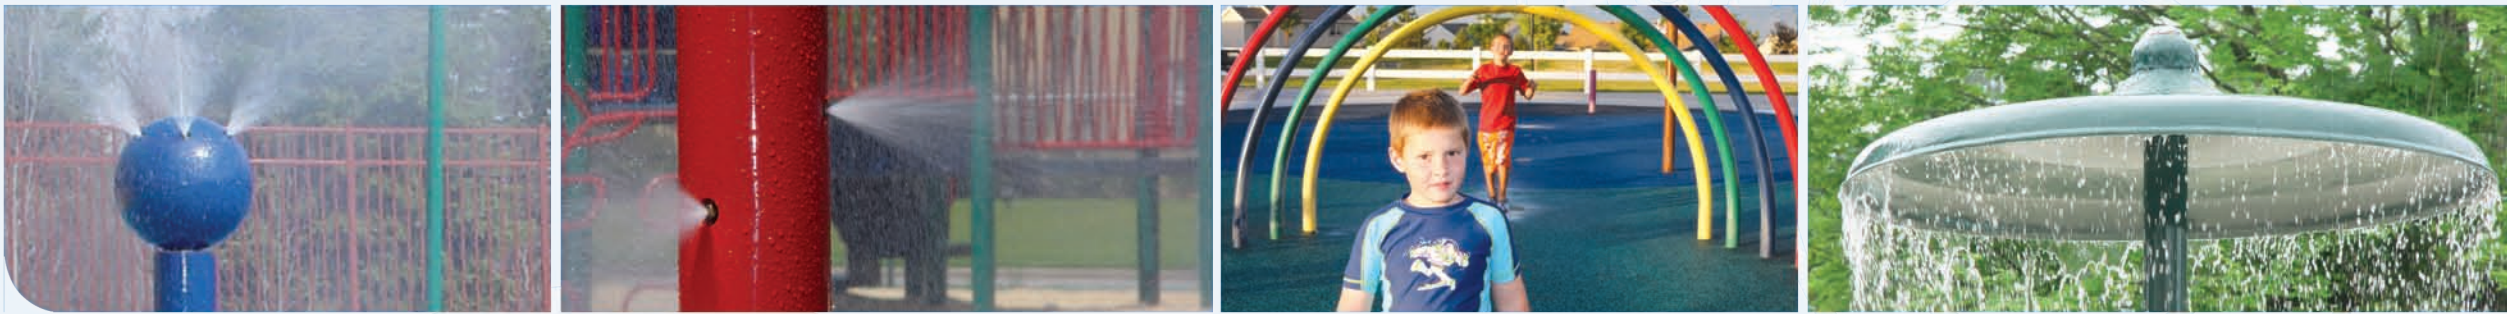

**Misting Clock**  
290-29129

You'll never be late for fun with the Misting Clock on your side. A working double sided clock sprays when activated and also on the hour!

15' Dia. Splash Zone  
5 gpm @ 20 psi  
Shipping Weight: 115 lbs.  
Height: 13'

# Spray Features

**Curved Splash - A - Round**  
290-30037

Water splashes over the edges of a huge 5'-6" dia. fiberglass dome. The ultimate in soaking fun. This large feature is a great focal point for play zones at neighborhood pools and community spray parks. Choose a straight or curved base with any color dome top.

12' Dia. Splash Zone  
10 gpm @ 20 psi  
Shipping Weight: 130 lbs.  
Height: 10'-6"

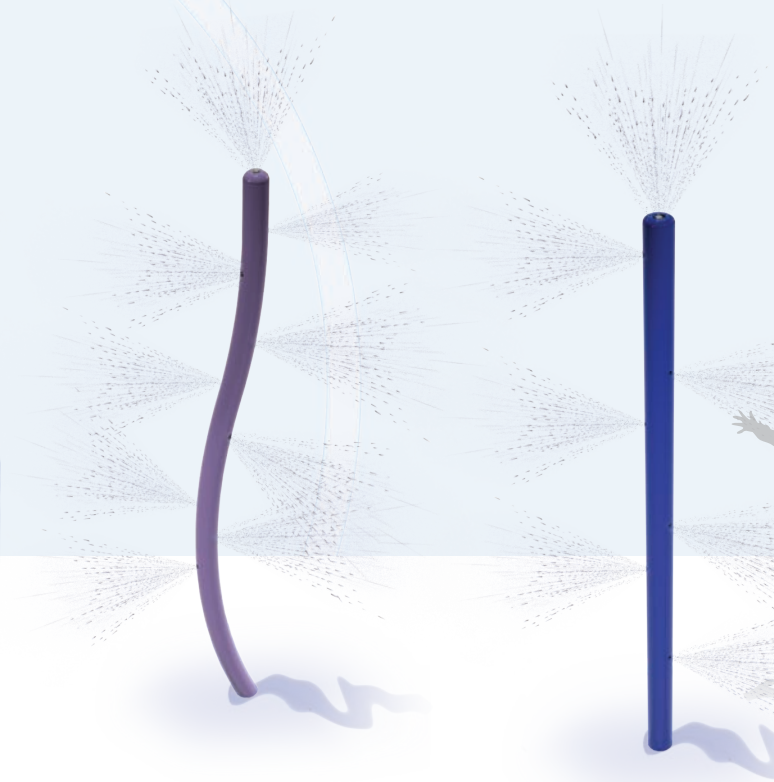

**Splash - A - Round**  
Straight 290-30032

**Clothesline**  
290-29141

Water rains down from the over sized arms creating a huge splash zone.

20' x 10' Splash Zone  
8 gpm @ 20 psi  
Shipping Weight: 145 lbs.  
Height: 10'

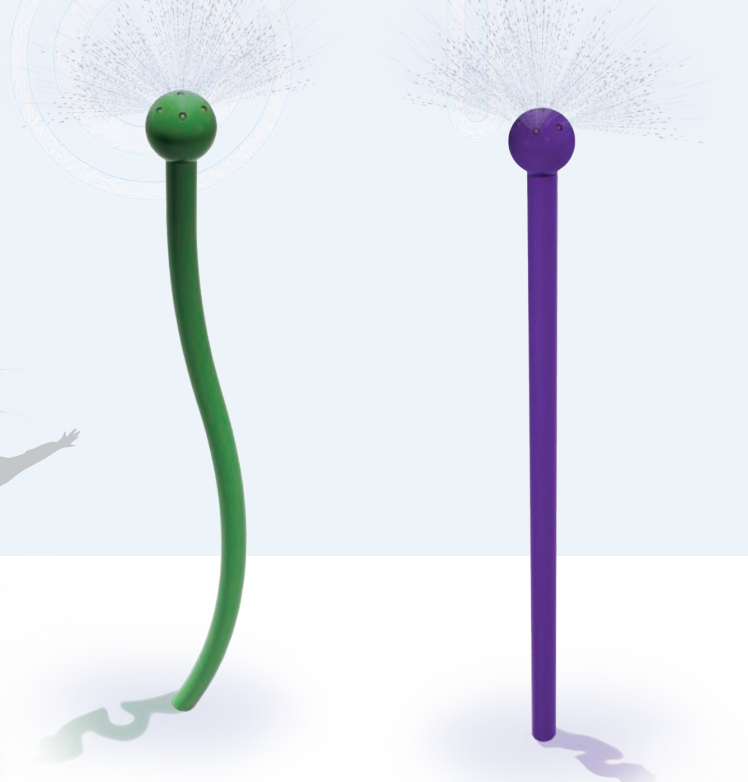

**Curved Sparkler**  
290-29162

Sparklers make for a full-circle fantasy with the misting jets spraying a full 360° shower from recessed nozzles on the sides and the top. Choose a straight or curved feature.

15' Dia. Splash Zone  
16 gpm @ 20 psi  
Shipping Weight: 95 lbs.  
Height: 8'

**Sparkler**  
290-29102

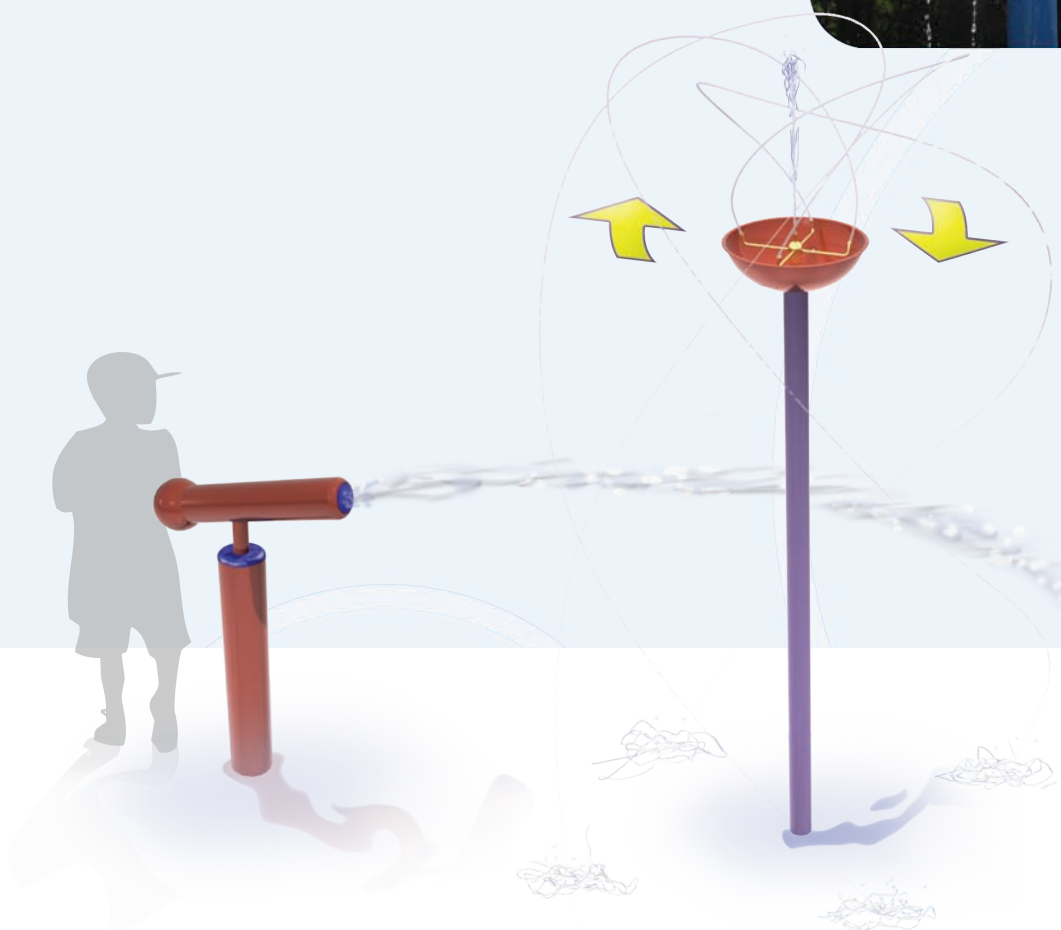

**Curved Misting Sphere**  
290-29164

Let's play ball! This big (10-inch) sphere rounds out any Spray Park, shooting water in all directions. Choose a straight or curved feature.

15' Dia. Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 110 lbs.  
Height: 11'

**Misting Sphere**  
290-29118

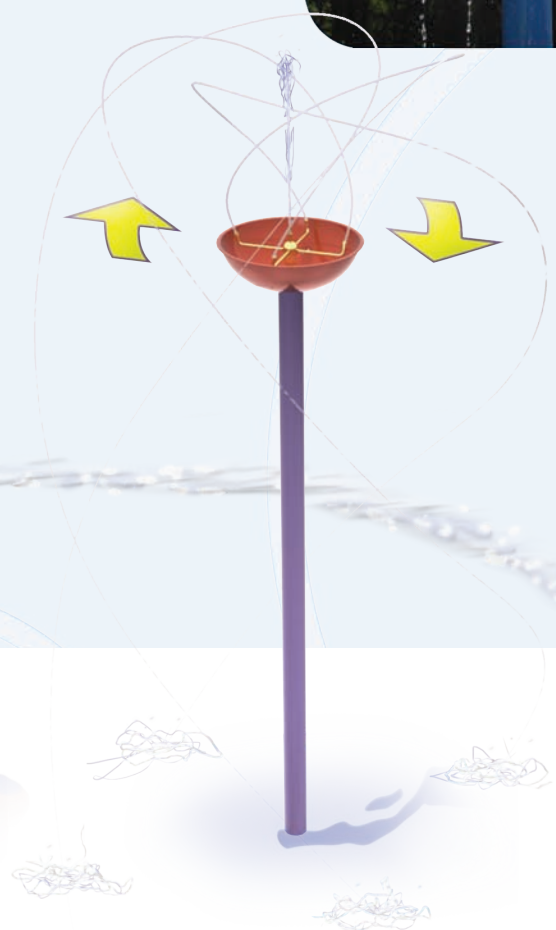

**Water Cannon**  
290-30067

Water fight! It's a gentle stream of water, but enough to make aiming-n-firing plenty of interactive fun.

20' x 15' Max Splash Zone  
12 gpm @ 20 psi  
Shipping Weight: 70 lbs.  
Height: 3'-3"

**Water Dancer**  
290-30027

This H<sub>2</sub>O Fun exclusive feature comes to life with a spinning top and great splashing action!

15' Dia. Splash Zone  
20 gpm @ 20 psi  
Shipping Weight: 110 lbs.  
Height: 11'-6"

**Pigtail Falls**  
290-29126

Double the fun with two soaking waterfalls from one great feature!

5' x 10' Splash Zone  
20 gpm @ 20 psi  
Shipping Weight: 145 lbs.  
Height: 10'-4"

**Curved Disco Drench**  
290-29160

Here's a bright idea: water spills over these 3 oversized discs from the top-end spout, making for a unique waterfall effect. Choose a straight or curved base with any color disk toppers.

15' Dia. Splash Zone  
10 gpm @ 20 psi  
Shipping Weight: 105 lbs.  
Height: 10'-4"

**Disco Drench**  
290-29113

**Ponytail Falls**  
290-29125

A delightful dousing stream of water falls gently from an open spout. This is a favorite for kids of all ages.

5' Dia. Splash Zone  
10 gpm @ 20 psi  
Shipping Weight: 130 lbs.  
Height: 10'-4"

# Spray Features

Curved Rainy Daisy  
290-29158

Get your green thumb ready for the Rainy Daisy! Over sized flower petals rain water down on everyone below. Choose a straight or curved base with the same flower petal toppers.

15' Dia. Splash Zone  
10 gpm @ 20 psi  
Shipping Weight: 130 lbs.  
Height: 10'

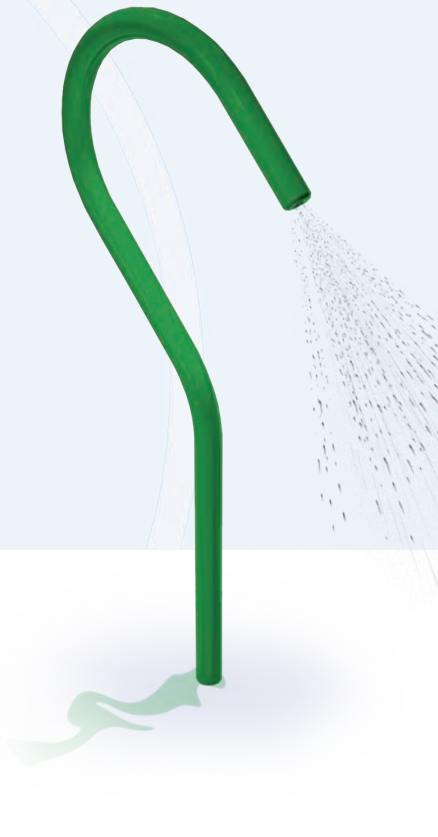

Rainy Daisy  
290-29154

Rain Dance  
290-29131

Streams of water rain down from the oversized arms creating wavering walls of shimmering fun.

20' x 10' Splash Zone  
16 gpm @ 20 psi  
Shipping Weight: 155 lbs.  
Height: 10'

Captain's Hook  
290-29106

A refreshing downwards pointing spray makes the Captain very popular with the kids!

8' x 13' Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 130 lbs.  
Height: 9'-7"

## Arched Spray Features

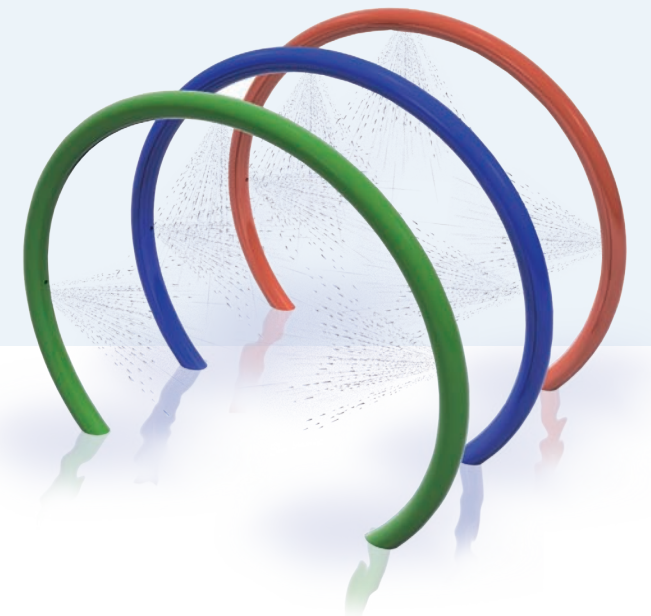

These features present a unique obstacle to a spray park. Children love to run through them getting blasted with water from all directions. The organic shapes bring life to any park and are sure to please even the toughest critics. String multiple Water Coils together to create a tunnel of spraying water, or add a Dueling Dumper to give patrons the ultimate surprise of a bucket full of water! Keep in mind, these features are not interchangeable with other features because of their unique double-base assembly.

**Streaming Kid Wash**  
290-30045

Six streams of water fill this arch and douse kids as they run through.

8' Dia. Splash Zone  
8 gpm @ 20 psi  
Shipping Weight: 165 lbs.  
Height: 7'-1"

**Water Coils**  
290-29159

A great lower cost alternative to the Misting Rainbow, the Water Coil provides a refreshing spray of water from all sides. Add multiple coils for a tunnel effect. Coils are sold individually.

10' Dia. Splash Zone - each  
6 gpm @ 20 psi - each  
Shipping Weight: 165 lbs. - each  
Height: 4'-9"

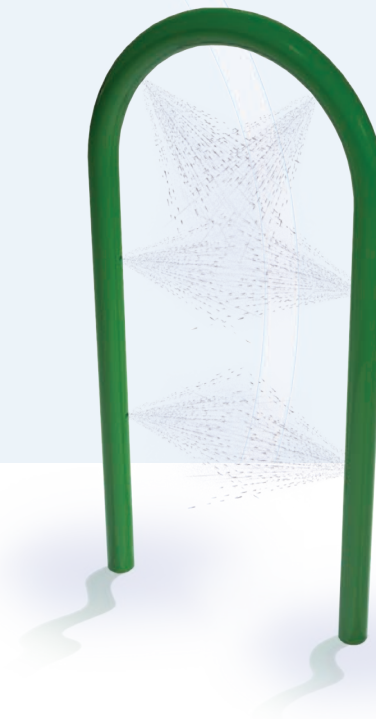

## Arched Spray Features

**Misting Rainbow**  
290-29107

It's magic -- kids love the fantasy of rainbows! They'll also love running through these multiple misting arches.

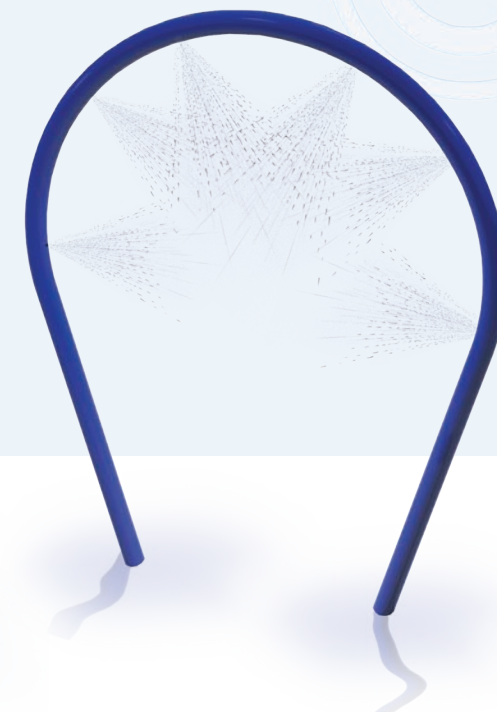

10' x 15' Dia. Splash Zone  
12 gpm @ 20 psi  
Shipping Weight: 490 lbs.  
Height: 7' > 5' 6"

**Kid Wash**  
290-29105

The Kid Wash douses 'em with a soft tunnel of water as they pass through - a great addition to designate an entry.

5' Dia. Splash Zone  
6 gpm @ 20 psi  
Shipping Weight: 165 lbs.  
Height: 7'-1"

**Misting Horseshoe**  
290-29124

Add structure to the park where kids will run through a gentle misting zone and create obstacle courses.

10' Dia. Splash Zone  
5 gpm @ 20 psi  
Shipping Weight: 180 lbs.  
Height: 8'

**Dueling Dumper**  
290-30044

Two buckets fill and empty at a rapid pace, sure to keep kids interested in this exciting feature!

10' Dia. Splash Zone  
6 gpm @ 20 psi  
Shipping Weight: 175 lbs.  
Height: 10'

# Lil' Squirt Spray Features

The Lil' Squirt series of H2Ofun features are specifically designed to accommodate smaller children at play. An interactive and safe play-zone is created for smaller children when features from this product line are grouped together. The Lil' Squirt water series is very welcoming to children ages one to four due to the petite feature sizes and playful water pressure levels. Use these features to create a separate space for smaller children to explore themselves while older children enjoy the larger features on a park. The Lil' Squirt line is interchangeable with each other and regular spray features.

Lil' Bent DoughNut  
290-29128

This angled 30-inch ring lets kids jump through hoops for you!

10' Dia. Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 65 lbs.  
Height: 3'

Lil' Spray Straw  
290-29109

A lil' version of the Spray Straw is a perfect attraction for the little kids.

8' x 13' Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 75 lbs.  
Height: 4'-6"

Lil' Sparkler  
290-29101

Another great mini version of a larger feature, the Lil' Sparkler sprays cool mist from all sides in a 360° circle.

15' Dia. Splash Zone  
13 gpm @ 20 psi  
Shipping Weight: 70 lbs.  
Height: 4'-2"

# Lil' Squirt Spray Features

**Lil' Dandy**  
290-30047

A subtle lean gives the Lil' Dandy the right kind of style for your park!

8' x 13' Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 75 lbs.  
Height: 4'-11"

**Lil' Dazzling Diamond**  
290-30049

If a diamond is forever, then this feature will keep attention spans locked in!

10' Dia. Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 75 lbs.  
Height: 3'-2"

**Lil' Geyser**  
290-29103

A lil' version of the Geyser, perfect for the little ones.

15' Dia. Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 70 lbs.  
Height: 4'-2"

**Lil' AquaStream**  
290-29152

Kids will love sitting inside this cage of water. The AquaStream produces streaming lines of water cascading down in a 360° circle.

8' Dia. Splash Zone  
10 gpm @ 20 psi  
Shipping Weight: 70 lbs.  
Height: 3'

**Lil' Misting Sphere**  
290-29117

A scaled down version of the Misting Sphere. Pair with other heights for fun design opportunities!

15' Dia. Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 75 lbs.  
Height: 5'

**Lil' DoughNut**  
290-29127

This refreshing 30-inch ring lets kids jump through hoops for you!

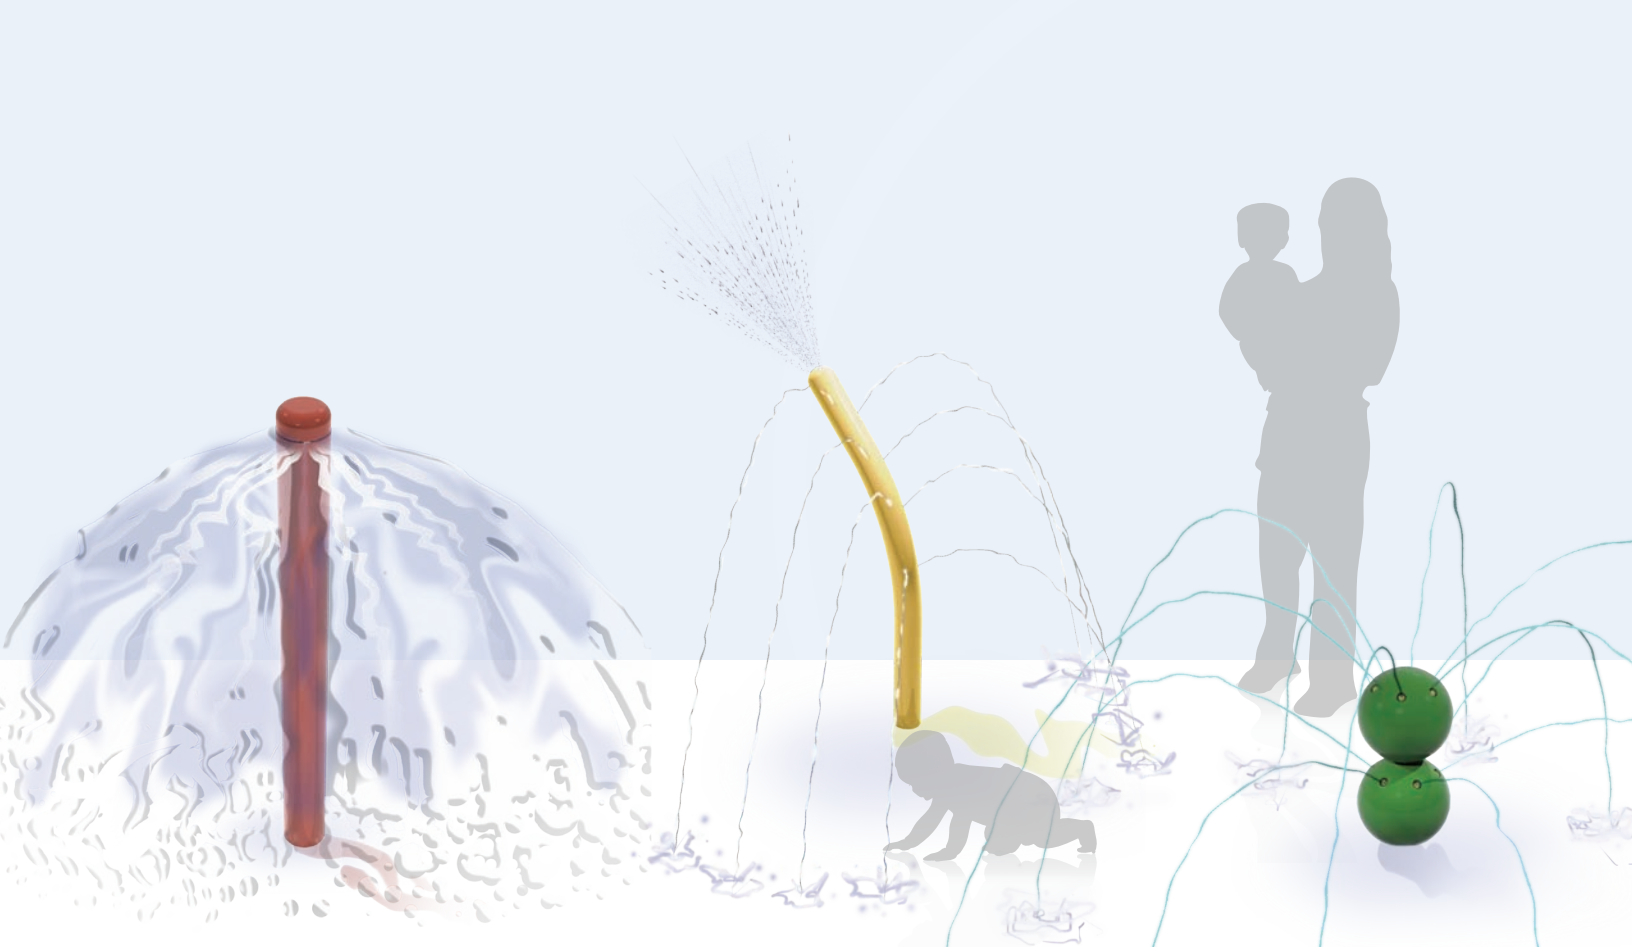

10' Dia. Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 65 lbs.  
Height: 3'

# Lil' Squirt Spray Features

# Color Selections

Our color pallet was carefully chosen to provide rich and vibrant color options for your Spray Park. All H2Ofun above ground features are mechanically cleaned, treated in a six-stage iron phosphate bath and coated with weather and UV resistant baked on polyester powder coating. The result is a very durable and long lasting gloss finish. Actual finished color may vary from the colors shown here due to paper and ink limitations.

**Lil' AquaShroom**  
290-29153

Kids will love sitting inside this dome of water. The AquaShroom creates a crystal-clear solid sheet cascading down in a 360° circle.

8' Dia. Splash Zone  
10 gpm @ 20 psi  
Shipping Weight: 70 lbs.  
Height: 3'

**Lil' Butterfly**  
290-30048

Imaginations will fly with this creative feature. Arching streams invite play.

6' x 15' Dia. Splash Zone  
15 gpm @ 20 psi  
Shipping Weight: 65 lbs.  
Height: 4'-4"

**Lil' Spider Sphere**  
290-30046

This creepy feature boasts 12 streaming jets creating web of fun and interactive play.

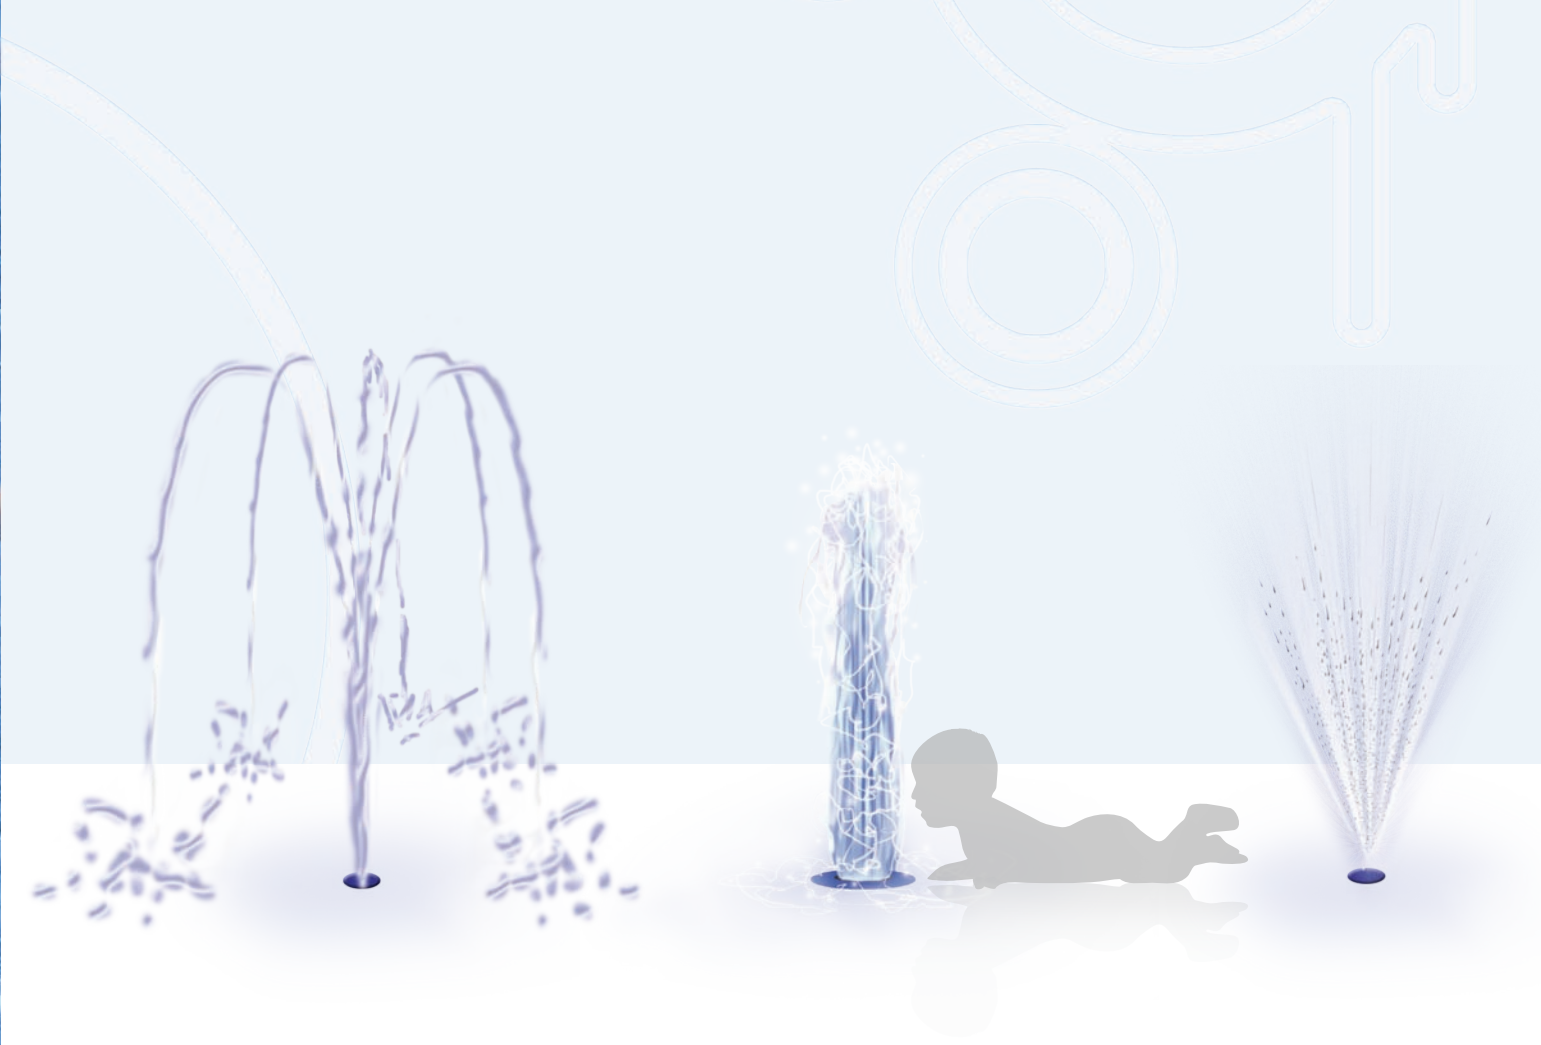

15' Dia. Splash Zone  
6 gpm @ 20 psi  
Shipping Weight: 55 lbs.  
Height: 2'-6"

## Flush Mount Spray Features

When water shoots right out of the ground, laughter and engaging play often follow...especially when you are talking about this line of flush mount spray effects. These jets mount directly to imbedded stainless steel concrete penetrations for a smooth appearance on finished concrete or pour-in-place surfacing. They are often interchangeable with each other so updating your park is surprisingly easy to do year after year. Flush mounted jets are also great for children too intimidated by even the Lil' Squirt line of products. By grouping flush mounts together in a spray park beautiful water patterns create a monumental setting for onlookers as well as the kids playing in them.

**Weeping Willow**  
290-30082

5 narrow streams of water shoot up, then arc out into a playful pattern.

8' Dia. Splash Zone  
5 gpm @ 20 psi  
Shipping Weight: 5 lbs.  
Max Spray Height: 10'H x 8'W

**Short N' Spout**  
290-19631

Thick and foamy water oozes from this 4" feature. Ideal for smaller children because of the soft bubbling effect!

4' Dia. Splash Zone  
25 gpm @ 20 psi  
Shipping Weight: 10 lbs.  
Max Spray Height: 1'-3'

**Blow Hole**  
290-30081

Water bursts in all directions from this flush mount feature.

12' Dia. Splash Zone  
7 gpm @ 20 psi  
Shipping Weight: 5 lbs.  
Max Spray Height: 8'H x 10'W

# Flush Mount Spray Features

Double Puddle Jumper  
290-30080

Double the fun with two narrow streams of water arching up in the air.

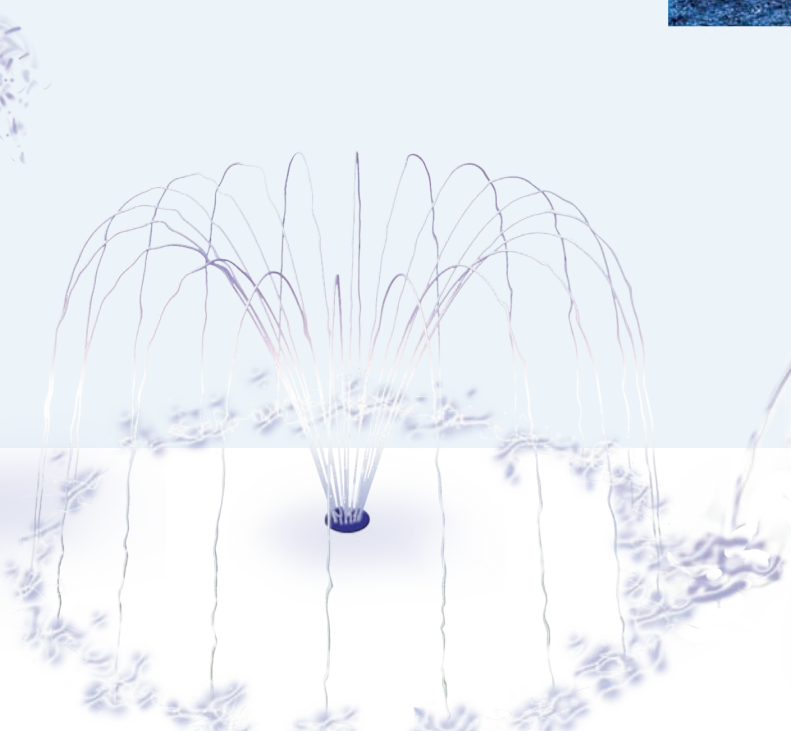

12'L x 6'W Splash Zone  
10 gpm @ 20 psi  
Shipping Weight: 5 lbs.  
Max Spray Height: 10'H x 10'W

Water Line  
290-30086

6 Gushers in a line for the ultimate in-ground water spouting fun!

10' x 6' Splash Zone  
20 gpm @ 20 psi  
Shipping Weight: 45 lbs.  
Max Spray Height: 10'H x 10'L

WaterBlossom  
290-30083

A super version of the Weeping Willow, 20 streams shoot up into the air from this 4" flush mount feature.

12' Dia. Splash Zone  
35 gpm @ 20 psi  
Shipping Weight: 10 lbs.  
Max Spray Height: 10'H x 12'W

Outward Spray Circle  
290-30084

A ring of jets spray outwards creating a wide & round-a-bout display.

15' Dia. Splash Zone  
30 gpm @ 20 psi  
Shipping Weight: 50 lbs.  
Max Spray Height: 10'H x 10'W

Puddle Jumper  
290-30068

A single narrow stream of water arching up in the air creates this classic feature.

12'L x 6'W Splash Zone  
3 gpm @ 20 psi  
Shipping Weight: 5 lbs.  
Max Spray Height: 10'H x 5'W

# Flush Mount Spray Features

**WaterBasket**  
290-30085

Underwater basket-weaving at it's best! 20 interwoven streams shoot up into the air from this 4" flush mount feature.
