

## Function:

The **720e-Silver Series Cartridge Filter ePAD** is identical to the 720e Bronze Series in performance with the only exception being the use of schedule 80 PVC piping, fittings, and true union ball valves. It features high quality components and reliable construction.

- Standard system includes selected pump size and sand filter.
- Fill / Level Manifold and Brominator are separate, optional items.
- Control panel requirements vary depending on pump selection. A control panel is required for all systems.

Shown with optional brominator.
