

## 254 Series

### Overflow

#### Function:

The **254 Series Overflow** is a stainless steel cast-in-place overflow/drain that provides overflow protection for the fountain. This fitting may also be utilized as a waterfall air-relief vent or a limited capacity equalizer fitting.

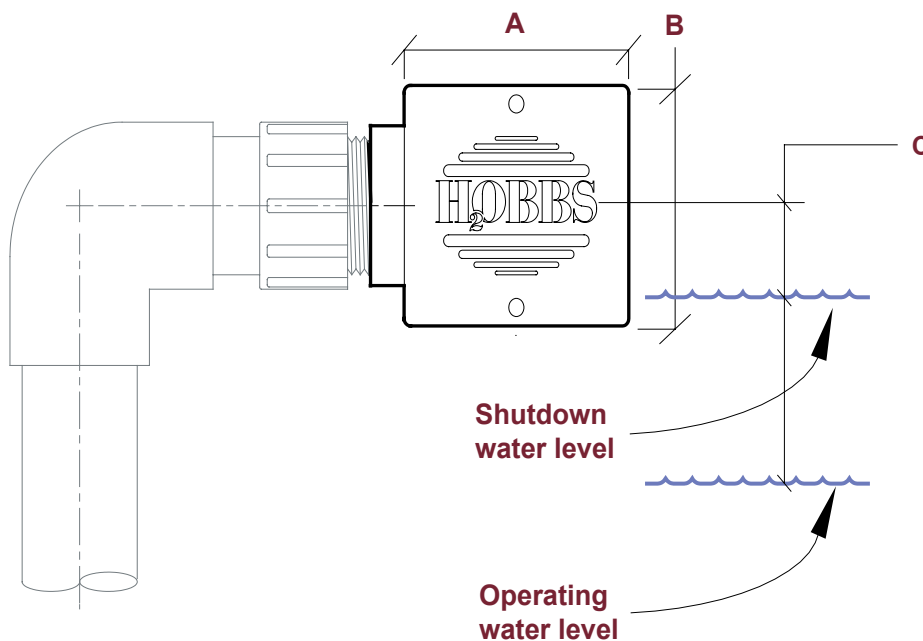

**#254-220 Overflow Fitting:** Niche mounted; non-adjustable. Stainless steel construction. 2" connection.

**#254-330 Overflow Fitting:** Niche mounted; non-adjustable. Stainless steel construction. 3" connection.

#### Key Features:

- One fitting protects 350 sq. ft. of surface area for most fountains.
- All stainless steel construction insures the longevity of your fountain.
- 2" or 3" FNPT side connection and bonding screw.
