

174 Series

Hemisphere

Function:

The **174 Series Hemisphere** produces a dome of glistening water. The delicate nature of this spray effect makes it the perfect choice for installations requiring a quiet, sculptural feature. The effect is further enhanced by underwater illumination. Individual or group designs are equally attractive in the appropriate architectural setting. The required scale can be selected from our wide range of sizes.

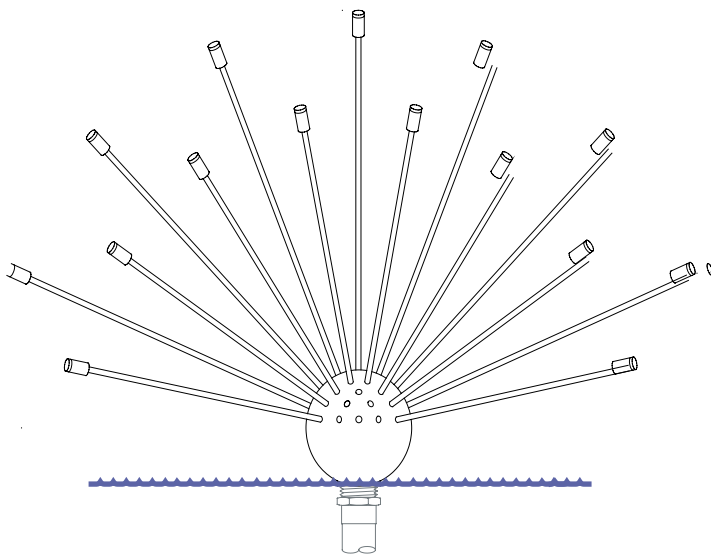

#174-036-034 Hemisphere:
3' diameter; 34 arms.

#174-048-034 Hemisphere:
4' diameter; 34 arms.

#174-048-051 Hemisphere:
